Chapter 2

New Chapter with a Long Title that Spanns over More Than One Line

Figure 2.1: A figure together with another figure.

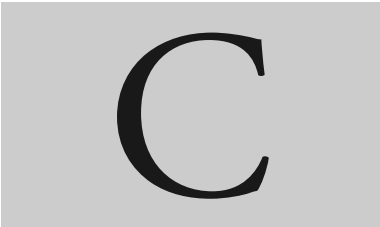

Figure 2.2: This figure can have a long caption and still fit if done this way. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do.

Above Figure 2.1 is next to Figure 2.2. By using the `#flexCaption(long caption, short caption)` function you can make flexible captions. You can also make longer/shorter headings! See Chapter 2.
